

Self Guided Detoxification

Offering a full 3-week detox kit and individual kits for person specific detoxification.

The Concept – THE WHY

Providing access to a professionally guided systematic **Self-Detoxification System** for supporting the user's Immune-, Digestive-, Respiratory-, Lymphatic-, Endocrine- and Self-Detoxifying Systems. The process works by reducing accumulated toxic waste and harmful pathogens from individual organs and body-tissues, via taking a synergistically amplified combination of herbs, vitamins and minerals with proven anti-inflammatory, anti-viral, anti-bacterial, anti-fungal, and toxic metal chelating properties.

Methodology – HOW IT WORKS

The System was designed to deliver its beneficial effects by using (3) separate Protocols;

- **KIT 1: Liver/ Gallbladder/ Bowel Flush,**
- **KIT 2: Kidney/ Bladder Flush,**
- **KIT 3: Toxins & Pathogens Flush.**

This allows users to purchase individual protocols or combine all three protocols for a comprehensive Self-Detoxification.

Each Protocol includes a **Self-Detox Kit** with;

- **Daily Schedule card**
- **Detailed Instructions.**

The Full 3-Week Body REBOOT®

When someone purchases all three kits at once they can be utilized as a comprehensive complete detox over a 3-week period. Kit 1,2 and 3 work systematically over the 3-weeks to detox your body as it was designed to.

Take out the trash, by giving your body a REBOOT®

Once you REBOOT® your systems, they will be optimized for any next steps you proceed with such as:

- **Surgery (pre/ post preparation),**
- **Weight Management (weight-loss or weight-gain),**
- **Mental and Physical performance enhancement,**
- **Overall wellbeing,**
- **Pregnancy Preparation,**
- **Regenerative/ Anti-aging Procedures,**
- **Sport Performance.**

History of use – PROOF OF CONCEPT

The Guided Self-Detoxification System and individual Self-Detox Kits were designed and formulated by Dr. Thomas Bige in 1997 and have been periodically upgraded following new research results and discoveries.

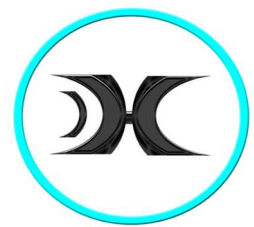

Utilizing the results of this system over the last 20+ years has proven its benefits. Dr. Bige has built and filled six clinics including a 650-acre Healing Ranch based on this system, by only taking clients who are willing to do the self-detoxification protocols before any other procedures, to significantly enhance their chances in recovery.
